Executive Secretary, NTISSC

FROM:

Arnold Donahue *Arnold Donahue*
OMB Representative, NTISSC

SUBJECT:

NTISSC 10-85 - Minutes of the 15 February 1985
Meeting of the NTISSC

The following language more appropriately reflects my remarks at the 2/15/85 NTISSC and should be substituted for the last full sentence in Number 10 in the draft minutes:

The OMB representative responded that the data would be centralized and that OMB is currently preparing government-wide bulletins, familiar to the committee members, to acquire current resource data; OMB was preparing to meet its tasking under the NSDD to provide consolidated data to the Executive Agent and the National Manager. The OMB representative further indicated that OMB's non-concurrence in the subcommittee's evaluations reflected dissatisfaction with the lack of identification of critical areas needing priority attention; neither the NTISSC representatives working within their agencies nor OMB examiners working with agencies during budget reviews could use the evaluations to concentrate on areas regarded by the NTISSC as requiring priority resource attention.
